MATHEMATICS MADE SIMPLE!

Simple everyday mistakes in arithmetic, algebra, geometry and trigonometry can cost you time, money, job promotions and good school grades.

This handsome, expertly-prepared book covers: short cuts to add, subtract, multiply, divide whole numbers; fractions, decimals; algebraic expressions, signed numbers; read and interchange fractions, decimals, percentages; find the area of a plot of land, room, etc.; ratio, proportion; algebraic equations; definitions of mathematical expressions; how logarithms simplify multiplication, division; how slide rule makes figuring fast, easy, accurate; axioms, theorems; constructing geometric figures for everyday problems; solid geometry; trigonometry to measure large or distant objects; angle functions for practical problems; representing quantities and sizes on graphs and scales; combinations and permutations; probability; —and much more.

It clearly and quickly teaches you what you need to know about this subject. There is no confusing language. You'll also use this book often as a handy reference. If completely satisfied after trial examination, pay only $1. for this special introductory volume.

New, Richly-Bound, Matched Library Volumes Use Everyday Situations to Teach Science, Business, Cultural and School Subjects; Assure Complete Mastery for Faster Job Advancement; Better School Grades, Richer, Fuller Living—In Just 15 Minutes a Day!

Now—the famous, proven MADE SIMPLE method offers you an education worth hundreds of dollars for pennies a day! Complete practical instruction in science, business and cultural subjects that you use every day for the children in school, mother at home, dad in his work and everybody in all their social contacts.

You can master these subjects in as little as 15 minutes a day, in weeks instead of years, with these books that are recommended by parents and noted educators for all age groups.

Learn Whenever You Want—Like Having Private Instructors In Your Own Home

This MADE SIMPLE *SELF-TEACHING* set is the only encyclopedia that makes important subjects part of your general knowledge instead of having to look in books to solve every problem. It covers practical, useful subjects in everyday language. It's like having private instructors in your own home. Learn at your own pace. No outside work, nothing else to buy. The books start from the beginning, assume no previous knowledge and lead you quickly and carefully through the entire subject. Prepared by experts for adults working without supervision, they also perfectly supplement classroom texts which contain confusing technical language.

Beautiful Library Volumes Perfect for Learning, Brush-Up, Permanent Reference

Whether you want to learn for the first time, review subjects you forgot or use for ever-ready reference, you could find no better set or price. These handsome 7¼ x 10½ inch, 24-carat gold imprinted, matched library volumes are not digests or outlines. Every point is made absolutely clear by illustrations and simple step-by-step explanations using everyday situations. No half answers to confuse you, no cross-references to make you use several books to get information. All the books teach you naturally, without memorizing long lists of rules.

Complete Explanations, Simple Illustrations Make Every Point Clear—No Previous Knowledge of the Subject Required

Here's how complicated subjects are MADE SIMPLE. In PHYSICS MADE SIMPLE, you are shown this simple home experiment which costs nothing. Hold one edge of a letter paper against your chin, just below lower lip, with the paper hanging over and down. Blow above the paper and it will rise as if pulled up in the air stream. This simple principle makes airplanes fly and teaches us to make moving objects move quickly and easily. Other books give you Bernoulli's Law, molecular action and other confusing terms. By the time you got to the experiment, if there was one, you wouldn't understand it. Here you read a simple explanation, do the experiment and *then* learn the technical terms, so you learn *naturally*, by doing, without memorizing anything. This has worked for many people who thought they were more hopeless than you may think you are.

You would pay many times the price for much less beautiful and useful encyclopedias. But these books, with sample military and civil service tests, hundreds of illustrations, hundreds of safe, easy home experiments, thousands of pages of clear, concise, valuable instruction and self-tests with answers in the back, will be USED, ENJOYED and ADMIRED by all your family and friends.

Here is a brief description of set:

SCARED!

"After thirty five years of service on the Great Plains," sighed Colonel Richard A. Dodge, "I thought I knew the Indian mind very well."

"Conditions have changed, Colonel "replied Major Walter Brennan in charge of the army post at Huntsville. "The fearless Indian fighter you once knew is something of a rarity today. We have changed him into something of a subservient reservation person. With the buffalo on the open plains almost gone, the Indian must live. So he has come to terms with us."

"And with his pride," added a saddened Colonel. "What we have destroyed in him is something that can't be replaced. And don't tell me that is the price of civilization. From what I gather those two men, Chester Raleighs and Thomas Incher never delivered the cattle at all to the Indians. But they did present vouchers drawn on the U.S. Treasury for the full amount. Why won't the Indians talk? They know we will protect them."

"My only conclusion is that they are scared. So scared that they would prefer to almost starve rather than point the accusing finger at those two thieves. And unless they do that-there is very little either you or I can do."

"Not exactly so," grinned Colonel Richard A. Dodge. "I have sent a telegram to our most famous scout-Yellowstone Charley. He should be here tomorrow morning. I asked him for his help, and if you know him as I do, he won't refuse."

The next afternoon the famous scout arrived at the army post. He talked to the Colonel. Rested there over night and then in the morning he drove out to the reservation to see his old friend, Chief spotted Leopard.

"My eyes are dim," greeted the Chief. "But I know my old friend when I see him. What brings you here?"

"It is going to be a very cold winter," explained Yellowstone Charley. "And the Great White Father in Washington will not be able to send you more cattle. Unless you get what was sent to you-then you will starve."

"If we starve-then we starve," were the words given back in reply.

"You must be frightened very much," said the scout gently. "To be willing to starve rather than to tell Colonel Dodge who stole the cattle sent to you."

The Indian Chief did not reply and Yellowstone Charley knew it would be futile to pursue the matter any further. He gave aways all the small presents he had brought back with him from the East. A wigwam was assigned to him. But he did not sleep. His fertile mind was at work trying to figure out a plan to make his friends talk. And then suddenly he started to laugh It was so simple!

Three days later, a group of Indians, headed by Chief Spotted Leopard appeared before the Colonel

"We tell you everything," began the Chief. "The two agents did not deliver the animals to us. But they scared us and we were afraid to talk."

The two scoundrels were behind prison bars. The cattle had been delivered to the Indians and all looked well on the horizon. But two puzzled army officers were now facing Yellowstone Charley who was about to leave the army post.

"You did a wonderful job," praised the Colonel. "All my thanks to you. In my report to General Sheridan I give you full credit. But please tell us how you did it."

"Very simple," grinned the scout. "It dawned on me what should have been evident to all of us. You can't reason with a person that is scared. But you can scare him more to get him to do what you want. Think about that one. So I put on my long red winter underwear. Took a firebrand in each hand Then later at night I rushed through the Indian village. Shouting in their language that those who dared to threaten my people must be punished. I would tolerate no cowards! They figured I must be some great spirit that was angered by their cowardly actions. So it worked, Simple, eh?"

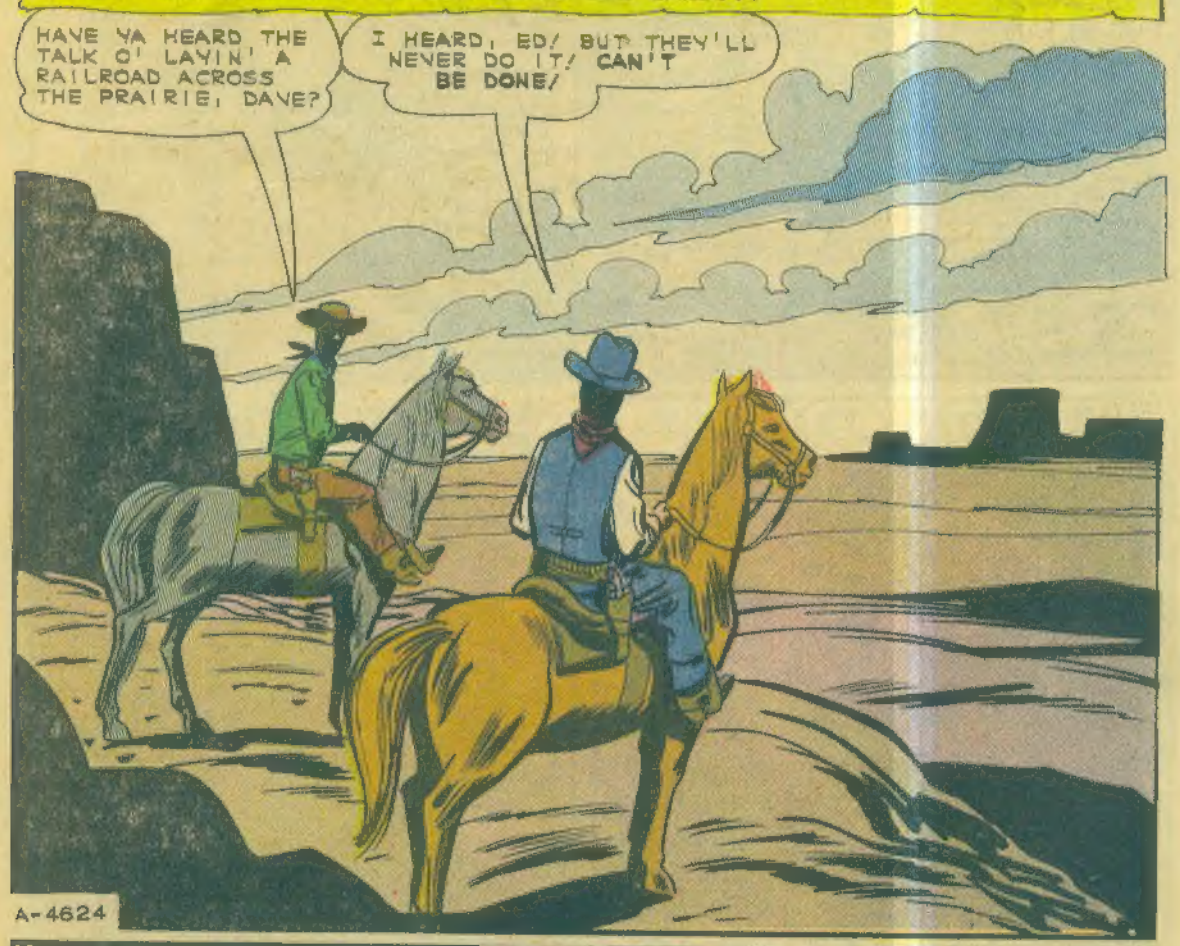
THE RAILROAD

THE VISION AND DETERMINATION OF A HANDFUL OF MEN BEGAN THE PROJECT THAT WOULD EVENTUALLY CHANGE THE FACE OF OUR ENTIRE NATION...THE DREAM OF HAVING A MEANS OF TRANSPORT FROM ONE COAST TO THE OTHER WAS ALMOST FANTASY...AND YET, THE DREAM DID BECOME REALITY...A GREAT RAILROAD WAS FORGED ACROSS OUR LAND...



OH, I DON'T KNOW/ WE SURE NEED ONE/
WE MAY NEED A RAILROAD, BUT I TELL YA T'AIN'T POSSIBLE/ ANYONE THINKS OTHERWISE IS JUST PLAIN LOCO/

I THINK YER WRONG, DAVE/ I THINK ONE A THESE DAYS WE'RE GONNA HAVE THAT OLD IRON HORSE CHUGGIN' ITS WAY RIGHT ACROSS THAT THERE PRAIRIE/

THE PROJECT BEGAN AT TWO POINTS... THE UNION PACIFIC STARTING FROM THE COAST AND WORKING A NORTHERLY ROUTE THROUGH THE MOUNTAINS...AND THE CENTRAL PACIFIC STARTING FROM ST. LOUIS AND WORKING ACROSS THE PRAIRIE AND DESERT TOWARD THE OCEAN...

THE PROBLEMS WERE VAST...THE DESERT SUN SCORCHED ITS WAY INTO A MAN'S SKIN...

WHILE THE FREEZING MOUNTAIN WIND TURNED THE SWEAT ON HIS BROW TO ICE...

GORGES WERE BLASTED THROUGH MOUNTAIN PEAKS THAT BLOCKED THE ROUTE...

BA-OOM

MEN DIED...! TUCKER WON'T BE LAYIN' ANY MORE TRACK TODAY OR ANY OTHER DAY!

MEN QUIT..! I'VE HAD IT! I'M NOT GIVING MY LIFE FOR A MILE OF TRACK! MAYBE STEVE'S GOT THE RIGHT IDEA!

FOR THOSE THAT DIED AND THOSE THAT QUIT, STILL MORE CAME...
LET'S GET GOIN', MEN! THERE'S WORK TO BE DONE!!
INDIAN RAIDS WERE COMMONPLACE ALONG THE CENTRAL ROUTE...
LET 'EM HAVE IT, BOYS!! THEY AIN'T GONNA STOP US FROM BUILDIN' THIS HERE RAILROAD!!
BAM BLAM BAM
STEP BY STEP...MILE BY MILE...TOWN BY TOWN...THE RAILROAD GREW...
IT TOOK YEARS AND MANY LIVES... BUT FINALLY, THE JOB WAS DONE..! SAN FRANCISCO AND THE FAR WEST TIED PERMENANTLY AND FOREVER TO THE EAST...AND OUR NATION HAD TRULY BECOME A UNION...
END
